Mohammad Almomani

Applied Economist — Economic Modelling, Applied Econometrics and Data Analytics

Adelaide, South Australia | Mohammad.almomani@adelaide.edu.au

PROFILE

PhD economist with six years of applied econometrics and quantitative modelling experience across industry and academia, including a commercial role as an Economic and Energy Market Analyst at Mubadala, Qatar. Builds economic and econometric models — fixed effects, IV-2SLS, difference-in-differences, regression discontinuity, and time-series forecasting (ARIMA/SARIMA, VAR/VECM) — in Python, R, Stata, and EViews to answer policy and commercial questions, and translates the results into clear, decision-ready visual narratives through dashboards, teaching and conference presentations. Currently a Sessional Lecturer at Adelaide University and Flinders University, teaching business, digital-business, economics, and data-analysis subjects. Full Australian work rights; available for Canberra-based work.

EDUCATION

Ph.D. in Economics — Flinders University, Australia May 2025

Thesis: Ageing with Purpose: Factors Shaping Well-being and Behaviour in Older Lives
Focus: Applied health and labour economics, longitudinal econometric modelling, causal inference, and modelling of later-life health, retirement, and behavioural outcomes.

M.A. in Economics — Yarmouk University, Jordan January 2019

Thesis: The Impact of Foreign Indirect Investment on the ASE on Foreign Reserves in Jordan
Focus: Econometric modelling and forecasting of foreign investment flows, Amman Stock Exchange performance, and foreign reserve dynamics, with emphasis on capital flows, financial-market linkages, and macroeconomic stability.

B.S. in Business Economics — Yarmouk University, Jordan June 2015

ACADEMIC APPOINTMENTS

Sessional Lecturer — Adelaide University July 2025 – Present

Teaches business and digital-business subjects at the Adelaide–Accenture Innovation Academy for Digital Business: Digital Solution Methodologies; Introduction to Digital Disruption in Business; Management, Organisations and Leadership; Negotiation, Conflict Management and Resolution.

Sessional Lecturer — College of Business, Government and Law, Flinders University July 2024 – Present

Teaches economics and business-data subjects: Assessing Economic Environments; Applying Economics for Business; Coding for Business (Python); Interpreting and Visualising Business Data; Pre-Masters Business Program. Redevelops and maintains the Canvas course site for Interpreting and Visualising Business Data.

Junior Fellow — Netspar June 2026 – Present

Affiliate Researcher — Global Labor Organization October 2025 – Present

PREVIOUS POSITIONS

Economic and Energy Market Analyst — Mubadala, Qatar February 2019 – November 2022

Delivered economic and energy-market analysis in a commercial setting, producing decision-ready insight for business stakeholders under tight time constraints.

Teaching Assistant — Yarmouk University, Jordan January 2016 – January 2019

SELECTED WORKING PAPERS

- Can education reduce aged-care need? Evidence from Aboriginal and Torres Strait Islander adults in Australia.
- Reducing preventable aged-care need: Retirement effects on functional independence among Aboriginal and Torres Strait Islander adults.
- Hope as a modifiable determinant of healthy ageing: Evidence for preventive obesity policy in older Australians using HILDA.
- Costs of age-related care needs among Australian women: Evidence from the Australian Longitudinal Study on Women's Health.
- Functional decline, aged-care use and wellbeing among older adults in South Australia: Evidence from the HILDA Survey.

CONFERENCE PRESENTATIONS

- Occupational variation in the impact of retirement on functional independence: Evidence from SHARE. Netspar International Pension Workshop, presenter and session chair, Leiden, the Netherlands, 2026.
- Education and volunteering for older adults: Cross-country evidence from Europe. Gateway to Global Aging Data Conference, Boston University, Boston, USA, 2025.
- Emotional closeness and life expectancy: Cross-country evidence from Europe. SHARE-Gateway User Conference, Berlin, Germany, 2024.

GRANTS, AWARDS AND PROFESSIONAL SERVICE

- Travel Grant, Netspar International Pension Workshop, 2026
- Travel Grant, Boston University Education, Aging and Health Conference (NIA/NIH), 2025

- Travel Grant, SHARE-Gateway User Conference, Berlin (European Commission), 2024
- Internal Research Grant, Flinders University (Stata licence and econometric research), 2023
- Selected Mentee, DASSH Mentoring Program, 2026; Member, Economic Society of Australia, 2026
- Judge for Presenter Papers, Flinders Business Research Day, 2025
- Reviewer: Journal of Population Economics; Journal of Economic Studies

RESEARCH INTERESTS

Economics of ageing and retirement; labour supply and pensions; later-life health and functional independence; healthcare and aged-care utilisation; wellbeing and social participation among older adults; applied econometrics; business data analytics and evidence-based decision-making.

RESEARCH & SOFTWARE SKILLS

Fixed Effects | IV-2SLS | FE-IV | Staggered DID | Event-Study Designs | Fuzzy RDD | ARIMA/SARIMA | VAR/VECM | Python | R | Stata | EViews | SQL | Power BI | SPSS | Advanced Excel

Daily use of large language models (ChatGPT, Claude, Copilot) for code development, literature synthesis and data preparation, with critical review of outputs for research-grade accuracy.
